

Candidate Consent Notice (Outside U.S.)

Your employer/contractor and Kforce Inc. are requesting that you complete this identity verification process to confirm your identity and protect against identity fraud. By checking the blue box and selecting the red “Let’s get started” button and proceeding with the scan of your ID and face, you indicate your agreement to participating in the ID verification process as described in this Consent Notice. Once you scan images of your government-issued ID and provide a “selfie” using your device’s camera as instructed, your ID will be checked for authenticity using, as may be applicable, government sources. Your “selfie” will be compared with your photo on the ID submitted to make sure you are the person on the ID. This information will be shared with your employer/contractor and/or Kforce Inc. to confirm that the process was completed and that your identity was verified. Please refer to Candidate Privacy Notice (Outside U.S.) for more information on how they will use and retain your information and if you have any questions. You can also contact IdentitySupport@kforce.com.
